

A snapshot of our strategy

Women in Medicine

- Purpose:

To inspire, encourage and support our Women in Medicine to reach their full potential
- Principles:

Equal opportunity

Capacity and capability building

Supportive networks and partnerships

Our goals

We **provide access** to leadership training and **support** our Women in Medicine to undertake the training early in their career

We **create networks and partnerships** for personal and professional development of Women in Medicine

We **remove barriers** to equal opportunity at all career stages

Tracey Ezard is well known for her high energy interactive and engaging style. She uses visual tools to increase the collaboration and ‘stickiness’ of the work being discussed and gets leaders the momentum they need for improvement.

Sandi Givens was awarded the designation of Certified Speaking Professional by the National Speakers Association of Australia (NSAA) and is the author of: Women on the Move: How you can create your place in the world.

Robert Wood is the Professor of Management at the Melbourne Business School, Director of the Centre for Ethical Leadership and Honorary Professor at the Florey Institute of Neuroscience & Mental Health

Yamini Naidu is a global thought leader in storytelling and intentional communication. She is a much sought after presenter, combining authenticity and humour with rich insights.
