

Movement Disorder Fellowship

We offer a Movement Disorder Fellowship at Monash Medical Centre. The Movement Disorder unit at Monash is comprehensive and involves regular outpatient clinics, a deep brain stimulation program, Apomorphine and Botulinum Toxin clinics across 2 sites at Monash Medical Centre and Kingston Centre. Applicants with a research focus in Movement Disorders would be preferred and a research project involving a clinical study or a more basic research would be expected.

The position would suit a person in advanced Neurology training undertaking an elective year.

Applications are via the Australian and New Zealand Association of Neurologists (ANZAN).

Please refer to college website for closing date.

Further information is available at www.monashhealth.org.au

Monash Health recruitment protocol requires all college recommended candidates to formalise their application to Monash Health by applying to our recruitment system. Further information will be provided to preferred college candidates at the appropriate time. Recommended Candidates will be required to upload their CV, a completed Fit2Work Consent form, and provide copies of 100 points of certified ID. Should the college be unable to provide Monash Health completed references, recommended candidates will also be required to provide referee details who will be contacted via our electronic referencing system.

Monash Health Position Description

Movement Disorder Fellow

Last Updated: May 2016

Position Title:	Movement Disorder Fellow
Classification:	HM25-HM30
Reports to:	Director of Neurology
Department:	Neurology

About Monash Health

Monash Health provides a world of healthcare across south eastern Melbourne, uniquely integrating primary, secondary and tertiary health services, as well as world-renowned research and teaching facilities in one organisation. Our health service provides access to public health services for a greater community of 1.3 million residents or 24 per cent of Victoria's population. Monash Health also has a wider official specialist role for greater Melbourne, regional Victoria and interstate in such specialties as paediatrics, cardiology, transplants and neonatal intensive care, with extensive university affiliations.

More than 15,000 staff work at more than 40 care locations across south eastern Melbourne, including Monash Medical Centre, Moorabbin Hospital, Dandenong Hospital, Casey Hospital, Kingston Centre, Cranbourne Centre, and an extensive network of rehabilitation, community health and mental health facilities.

On average each year:

- We provide more than 3.1 million episodes of care to our community
- More than 238,851 people are admitted into our hospitals
- More than 206,602 people come to our three Emergency Departments for treatment
- We respond to more than 51,476 ambulance arrivals
- We deliver more than 9,489 babies, and
- More than 36,453 children are admitted to our Monash Children's Hospital and neonatal units.

Together, we seek to deliver quality patient-centred health care and services that meet the needs of our diverse community.
