

Direct observation of procedural skills (DOPS)

Peripheral Intravenous Cannulation

Trainee details:

(INTERN)

Assessor classification: (circle one)

Should know the MH PROMPT protocol: Peripheral intravenous (IV) cannula insertion (Adult)

Name:

Consultant

Nurse Educator

Employee #

Registrar

Registered Nurse Div 1

Features of a satisfactory skill demonstration

- I have reviewed the MH background policy 'Peripheral Venous Cannula insertion (adult)' and associated procedures
- I have completed all the required learning via Monash health learning system prior to practical demonstration attempt

Not sure about this procedural skill? If you would like more information please return to the Intern Assessment page for links to additional resources. (<http://monashdoctors.org/intern-assessment/>)

Pre procedure

- Displays an understanding of relevant procedural indications, contraindications, anatomy and technique
- Informed verbal consent has been obtained from patient after explanation of indication, benefits and risks
- Preparation of equipment and workspace has occurred with minor verbal prompting from assessor.

Asepsis and sterile field management

- Hand hygiene performed and aseptic technique maintained throughout care episode. Any breaches are recognised by the trainee and rectified.
- Introduction of sterile items to procedural field ensure maintenance of aseptic technique.
- Sterile gloves are applied without contamination

Skill demonstration and execution

- Execution of skill is compliant with Monash Health policies and procedures (including Peripheral intravenous (IV) cannula insertion (Adult)) and includes optimising patient comfort and privacy, and completion of required documentation. Direct supervision is no longer required.

Trainee overall performance
